

Southern Interchange (Interchange 16A) Roundabouts

Future South Roundabout ▼

Roundabouts will be used in place of signalized intersections along East Brighton Avenue

These visualizations are representative of design intent and the preliminary layout of site elements. These elements will be further refined as the design progresses. The final selection of site elements such as lighting, planting, and paving, as well as materials, colors and finishes, will be determined during final design. Trees and plantings are shown in an established and mature state.
