

- A minimum of two lanes of traffic will be maintained in each direction on I-81 and BL 81 during peak traffic hours
- Traffic information available at 511ny.org
- Temporary signing, including the use of variable message boards, will be used during construction to alert motorists to travel changes
- Temporary concrete barrier will be provided between travel lanes and the work zones to protect both the traveling public and the construction workers
- In addition to the NYS Police providing enforcement of work zone traffic laws, automated work zone speed enforcement will be utilized
